Scott Ledonne

Full-Stack Software Engineer

Cincinnati, OH · (859) 663-1390
scott.ledonne@gmail.com
scottledonne.com · in/scottledonne

CORE STACK

C# · ASP.NET Core · SQL · Python · Java · JavaScript

SKILLS

Languages & frameworks

ASP.NET Core MVC · Java/J2EE · JSP/Servlets · jQuery · Node.js · Express · Bootstrap · XAML · Cordova · Classic ASP/VB · PHP

Data, DevOps & integration

MongoDB · SQLite · JDBC · REST APIs · Git · GitLab CI/CD · Ansible · JUnit · netmiko · Cisco AXL · Calabrio APIs · GIS data

Platforms & practices

Cisco CUCM · PCCE · RTMT · Routers & ASA · Linux · Windows Server · Agile/Scrum

EDUCATION

B.S. Computer Information Technology
Northern Kentucky University, 2012 · SECCDC competitor

CERTIFICATIONS

Cisco CCNA Routing & Switching

CompTIA Security+ CE

EARLIER

System Administrator
SOTO · 2012–14

Jr. System Administrator
Mid Central Financial · 2010–12

Counter Intelligence Agent
Geek Squad · 2008–12

SUMMARY

Full-stack software engineer with 15+ years building web apps, APIs, and automation in C#, ASP.NET Core, Python, and Java. I build the tools that replace spreadsheets, scripts, and repetitive configuration, then take them to production.

EXPERIENCE

Senior Engineer

SEP 2015 – PRESENT

TriHealth · Cincinnati, OH

- Build and maintain full-stack **ASP.NET Core MVC** applications (C#, SQL, JavaScript/jQuery, Bootstrap) used to deploy and manage the network and contact center.
- Built **PSM, Synapse, SynapseUSB, and CalabrioConfigSync**: web, desktop, and service apps that integrate with Cisco AXL, PCCE, and Calabrio APIs.
- Wrote **Python automation** (netmiko, MongoDB, SQL) for config deployment, cluster maintenance, log parsing, and data consolidation.
- Set up **Ansible playbooks and GitLab CI/CD** so configuration changes deploy on commit; built custom reporting from CUCM and PCCE databases.
- Own projects from requirements to production: gather requirements with stakeholders, run UAT, and train end users.

Application Developer

NOV 2011 – SEP 2015

Southwest Financial Services, Ltd · Cincinnati, OH

- Built transaction-processing, reporting, mobile, GIS, and document-processing software for mortgage and financial-services clients, including vendor and client integrations and legacy system support.

SELECTED PROJECTS

PROJECT	WHAT IT DOES	STACK
TriHealth		
PSM	Contact-center site management	ASP.NET · C# · jQuery · SQL · CUCM AXL · PCCE
Synapse	Network device config platform	ASP.NET Core · C# · SQL · Ansible · GitLab CI/CD
SynapseUSB	Provisions new devices for Synapse	C# · XAML · REST
CalabrioConfigSync	Calabrio/CUCM drift correction	C# · Calabrio APIs · CUCM
ASADeployer	Config deploys to Cisco 891 ASAs	Python · netmiko · MongoDB
CCEToolbox	Contact-center SQL & API tools	Python · SQL
RTMTParser	On-demand RTMT log parsing	Python
Southwest Financial Services		
RapidSFSOrders	Order processing & reporting	J2EE · EJB · JSP · JDBC · SQL · JUnit
Appraiser Photo	GPS-verified appraisal photos	Cordova · SQLite
OCR Service	Mortgage document data updates	Java · Tesseract · SQL
Bluewater	GIS flood-zone maps for lenders	J2EE · JSP · JDBC · GIS
Mercury	Legacy order system, features & fixes	Classic ASP · VB · jQuery
